## ARTIST BIO

**Dyan Garris** is a multiple award nominated New Age recording artist, a visionary mystic, voice recognition psychic, and trance channel medium who reads from the Akashic Records. A pioneer in the field of energy integration and healing, she has helped thousands of people move forward by teaching them to use their innate intuition and to connect with and harness the power contained in their chakras.

Her chakra balance certification course is double accredited and is approved as 50 hours of continuing education through NCBTMB. She has created a “Spiritual Toolbox” of products that are designed to work together for multi-dimensional, integrative healing. These include a multiple award nominated CD series with many #1 charting songs. Her music and meditation CDs were independently tested and have earned “The National Health and Wellness Stamp of Approval.”

Garris is also the author and artist of *Voice of the Angels – A Healing Journey Spiritual Cards* – the first deck of angel cards with channeled messages, plus accompanying music, journal, and guided meditation the angel cards are based upon – and several books, including the best-selling, award winning finalists *Money and Manifesting* and *Money and Manifesting II*.

Garris’ new oracle decks *Song of OM* (all cards in the deck based upon song titles from her music series), *The Integration Cards*, and *Oracle of Tea* were released in 2016, and are available as online readings including animated “3D experience” readings that include music.

Her new CD, *Mystic’s Nine*, will also be released in 2016 and her relaxation album, *Orenda: Breath of Angels* will be released in 2017.

### **But you want the MUSIC bio. . .**

Dyan Garris started playing the piano when she was four years old. Her mother bought a baby grand piano and soon thereafter brought in a piano teacher. The piano teacher was an interesting choice because he was totally blind.

At the first lesson Dyan asked him how he was going to teach her to play the piano since he could not see, and she asked him to take off his glasses so she could see his eyes. He obliged. They were beautiful blue and they were definitely blind. But even then through those obscured windows, she saw his soul.

He was brilliant. And he said to her, “Child, we do not need to be able to ‘see’ to play this instrument. We only need to be able to *feel* the music. Music is not about seeing. It’s about *feeling*.” With that, he took her hands and placed them atop of his and they played the most wonderful, beautiful music.

Garris is a classically trained pianist, and along with continual piano lessons from that time on, she went on to also take up the violin. She became first chair, first violin throughout high school orchestra and still loves the way the two instruments blend so nicely together in perfect harmony.

## LINER NOTES FROM *MYSTIC'S NINE*

The mystical number 9. . .

Every album tells its own unique story in its own special way, just like a book. As well, music connects us to ourselves and to one another on an emotional body level like nothing else can. If we are listening, if we are feeling, everything speaks.

*Mystic's Nine* was several years in the making. In 2010, having finished the 12 CD series of music & meditation for vibrational attunement of mind, body, and spirit, & the creation of several other spiritual tools focused on helping humanity move forth in these challenging times, my thoughts and feelings were then guided in the direction of breaking out of that particular parameter; a reclaiming of my musical self, or perhaps all of my "selves" that had been previously focused elsewhere.

I am a classically trained pianist (and violinist) & longed to connect more freely in this regard with the music that resides in my soul. So with excitement I began the new journey. But, Spirit has its own ideas about timing, & it was not to be. In 2012 my husband had his first stroke. And more. Over the course of the next 4 years, life as we knew it was forever & irrevocably altered in every way. But through it all, we learned, grew, loved each other even more & completed with grace our earthly lifetime together.

The human body & spirit are way more resilient than we may even realize. Our capacity for love is utterly boundless. And in every moment we have a choice to bring joy and laughter into our lives no matter what the situation.

*Mystic's Nine* is a chapter in a book, a small piece of an Akashic Record. Thank you for allowing me to share it with you now. It is decidedly uptempo. It is unbridled freedom. It is joy. It is triumph and victory over all adversity. More than anything, it is LOVE. It is my hope that you feel that and take it in, like a big, deep breath of fresh air, into your own spirit. ~ With love, joy, blessings, and immense gratitude to you ~ Dyan
