I am always on the lookout for amazing slices of ambient music and I can honestly say I am eternally grateful to have found **Forest Whispers**, the latest single by **Dyan Garris**, and featuring the amazingly talented *Sherry Finzer*.

**Dyan Garris** and this marvellous melodic construct is utterly natural and multi-instrumental in nature, whether it piano or keyboards, her talents as a creator of tranquil ambient music are so beautifully created, and when you add one of the best flautists on the planet in *Finzer* into the mix, you have a single that will remain in your musical mind for a life time and beyond.

**Forest Whispers** by **Dyan Garris** ft *Sherry Finzer* has to be tipped for a top 5 place at least in the charts and for those of you like me, listeners that like to find incredible meditative music to be at peace with, then **Forest Whispers** has to be added to your music library as soon as possible, if not quicker.
